Lack of Unity of Invention(s)

- 1) Claims 1-24 have been canceled.
Claims 25-48 have been added.
Claims 25-48 are under prosecution.
- 2) **Please Note:** In an effort to enhance communication with our customers and reduce processing time, Group 1640 is running a Fax Response Pilot for Written Restriction Requirements. A dedicated Fax machine is in place to receive your election responses. The Fax number is 703-308-4315. A Fax cover sheet is attached to this Office Action for your convenience. We encourage your participation in this Pilot program. If you have any questions or suggestions please contact Paula Hutzell, Ph.D., Supervisory Patent Examiner at Paula.Hutzell@uspto.gov or 703-308-4310. Thank you in advance for allowing us to enhance our customer service. Please limit the use of this dedicated Fax number to responses to Written Restrictions.
- 3) The instant inventions lack unity under PCT Rule 13.1 and 13.2:
 - I. Claims 25-39, drawn to a process of using an enterobacterium OmpA protein or a fragment thereof for preparing a composition, classified in class 424, subclass 234.1
 - II. Claims 40-45, drawn to a method for modifying the immune response to an antigen or a hapten, classified in class 530, subclass 807
 - III. Claims 46-48, drawn to a pharmaceutical composition comprising an enterobacterium OmpA protein or a fragment thereof, classified in class 514, subclass 2
- 4) Inventions I, II and III lack unity of inventions due to the absence of a special technical feature. The pharmaceutical composition comprising an enterobacterium OmpA protein of SEQ ID NO: 2 or a fragment thereof is the special technical feature unifying the inventions. However, such a composition is already disclosed in the prior art. For instance, see the disclosure of Binz *et al.* (WO 97/41888). Although a product of the invention and the first method of using the product is a permitted combination under PCT Rule 13.2, in the instant case, the special technical feature is not a unifying feature since it is already disclosed in the prior art.
- 5) Applicants are advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R.
